

Statement of Justification for *Historical Resources Act* Requirements for projects other than small-scale oil and gas

Instructions for use:

This form is to be used to justify recommendations for establishment of Historical Resources Act requirements for projects other than small-scale oil and gas (i.e., those currently, outside the Online Permitting and Clearance system). Hard copy forms may accompany detailed project information provided by proponents and are to be submitted to the Land Use Planning Section.

<p>Project Name or Project Identifier</p> <p>1. <i>Full official name of the proposed development (project identifier). This name should be the one used by the proponent and other regulators and should be used consistently throughout the justification document and any subsequent correspondence.</i></p>
<p>Disposition Type & Number</p> <p>2. <i>Where applicable, include the disposition type and number assigned by Alberta Sustainable Resource Development for the activity (e.g., MSL 085090, CEP 070001, MLL 0900021).</i></p>
<p>Name: Corporate name of affiliated company: Phone number: Fax number: E-mail address:</p> <p>3. <i>Name, affiliation and contact information of the person who prepared the document. Recommendations regarding archaeological resources must be made by a professional archaeologist.</i></p>
<p>Name of proponent contact: Corporate name of proponent: Address: Phone number: Fax number: E-mail address:</p> <p>4. <i>Official corporate name of company or government agency conducting development.</i></p>
<p>Name of agent: Corporate name of agent: Address: Phone number: Fax number: E-mail address:</p> <p>5. <i>If applicable, the name, address and project contact of any agents acting on behalf of the proponent.</i></p>

Lands Affected			
Legal Description		Land Ownership Type	HRV
<p>6. List the legal land description of all lands affected by the proposed development. Lists showing only originating and termination points of linear rights-of-way are not acceptable.</p> <p>e.g.,</p> <p>00-00-000-00-W0M</p>		<p>Freehold, Special Areas Board, Crown untitled, or Crown titled</p> <p>Freehold</p>	4
Activity type and Anticipated Ground Disturbance			
<p>7. A description of the activity type and the extent of possible impacts (e.g., topsoil stripping, depth of excavation, etc.)</p>			
Project size			
<p>8. Approximate size of the disturbance area, including anticipated depth (e.g., 10 ha, 150 km x 30 m wide right-of-way, entire quarter section, etc.). Be as precise as possible.</p>			
Existing Disturbance			
<p>9. Information regarding any previously existing surface or subsurface disturbance (e.g., previously cultivated field, existing right-of-way, etc.). Attach table listing by legal description if there is extensive variation.</p>			
Landscape and Environmental Information			
<p>10. Landscape information, such as vegetation, landform, drainage and topography types, that may influence archaeological site and sedimentation potential in the activity area (e.g., parkland, draped moraine, 100 m west of creek, low sedimentation potential, etc.)</p>			
Archaeological Resources			
Borden #	HRV	Relationship to activity	Anticipated Impacts
<p>List Borden numbers for all known archaeological sites in vicinity of the proposed development.</p> <p>e.g.,</p> <p>XxYy-0</p>	4	<p>11. Describe the relationship of the proposed development to known sites. Where sites are adjacent to the development, include estimated distance. Be as precise as possible.</p> <p>The site is 20 metres south of the access road.</p>	<p>Discuss whether or not the site(s) will be impacted by the proposed development. Be as precise as possible.</p> <p>Copies of the site forms are not required.</p> <p>The site will not be impacted by this development.</p>

Historic Structure(s)	Relationship to activity	Anticipated Impacts
<p><i>Search the Provincial Heritage Survey records and provide a list of all previously recorded historic structures in the same section.</i></p> <p>e.g.,</p> <p><i>HS00000 Farm house</i></p>	<p>12. <i>Describe relationship of the proposed development to known sites and discuss whether or not the site(s) will be impacted.</i></p> <p>Copies of the site form(s) are not required.</p> <p><i>The house is 30 m north of the development zone.</i></p>	<p><i>The house is 30 metres west and across the road from the proposed development and will not be impacted.</i></p> <p><i>The site will not be impacted.</i></p>
Permit Number(s)	Relationship to proposed development footprint	
<p><i>Provide a list of the permit numbers for all previous studies in the section(s) that may be affected by the proposed development.</i></p>	<p>13. <i>Discuss all previous studies that have included lands within the proposed development footprint and how their findings might relate to the current project.</i></p>	
Illustrative Materials		
<p>14. <i>List all illustrative materials attached. These must include a development plan and a 1:20,000 or 1:50,000 NTS map that clearly depicts the development footprint and any known archaeological sites and historic structures within or immediately adjacent to the development. Maps must include visibly marked Section, Township, Range and Meridian lines. Other illustrative materials, including air photos or other photographs, also may be attached.</i></p>		
Evaluation		
<p>15. <i>Using the assembled data along with your professional expertise, provide an evaluation of the potential of the proposed development to impact known or unknown historic resources.</i></p>		
Recommendations		
<p>16. <i>Considering the nature of the predicted disturbances, indicate the values of any affected historic structures or archaeological resources and the potential for the occurrence of other historic resources. Provide recommendations for management under the provisions of the Alberta Historical Resources Act. Recommendations may include clearance for all or parts of proposed development areas. Recommendations regarding archaeological resources must be made by a professional archaeologist.</i></p>
